

To whom it may concern

Lausanne, 3 January 2021

Dear Sir,

CIAM is the Aeromodelling division of the World Airsport Federation (FAI). Every year we publish the sporting events calendar which includes World or Continental Championships and also the Open International events.

For the year of 2020 the FAI World Championships for scale model aircrafts was scheduled to happen in Norway and in specific in Tonsberg from July 25 to August 1st.

The organizer always following the existing rules has published all the necessary for the event information and sent it to the FAI members and as expected a lot of countries already had expressed the intention to participate.

However the COVID-19 outbreak and all the restrictions applied in almost every country of the world changed the plans. CIAM decided to postpone all the international events scheduled for 2020.

We have been in contact with all the organizers and for the specific event we decided to reschedule it, so to happen in 2022 at the same place from July 23 to 30.

With this letter, on behalf of CIAM I would like to confirm that the event scheduled for 2022 is not a new one but a rescheduling of the event planned for 2020.

Mr. Paal Linden Anthonisen is the Contest Director of this event and he will be able to provide you with any additional information you might need.

We would like to thank you in advance for your support for this event.

With respect

Antonis PAPADOPOULOS

FAI CIAM President
